

## Pre-assembly of PMP Intelli-Jet V™ headbox for APP

In the 2nd week of January 2007 we have finished the pre – assembly of the Intelli–Jet V™ headbox for the Asian paper mill.

Contract was signed in April 2006 and the scope of supply was the new Intelli–Jet V™ headbox. The equipment will be install at the machine which produces fluting liner. The Pondsides is 4 900 mm and design speed is 800 mpm.

In the 3rd week of January the visit of the paper mill representatives took place. The main aim of this visit was check – out of the headbox and reference visit at one of the polish paper mill, in order to see how PMP products work.
