

## **PM#1 Press Section Modernization for Arctic Paper Kostrzyn S.A., Poland**

After successful PM#2 press section modernization provided in 2004, in May this year, PMP signed the following modernization contract with Arctic Paper Kostrzyn S.A. This time the revamp is focused on PM#1 press section. The mill produces high quality offset and graphic papers.

The scope of supply covers the 2nd press configuration modification and the delivery of new press rolls. As the result of modernization, the press section will be adjusted to higher working speeds to enable the machine capacity increase in the future.

The equipment delivery, erection and start-up are scheduled for December 2006.
